

家用型非工业型钻铣床

Non-industrial drilling and milling machines for home workshops

60KG 占地面积小, 应用场所广。

SKF 采用进口SKF轴承, 提高使用寿命和精度。

无级调速, 齿轮传动, 主轴转速100~3000rpm。
三轴采用燕尾导轨, 配可调节锥度镶条, 耐磨损, 可重载
面接触, 刚性好。

CE标准的断电护罩, 打开保护罩自动断电, 安全可靠。

Machine 60KG, small volume, easy to handle
The main shaft adopts SKF bearing, with high precision
and long life.
Stepless speed regulation, gear drive, spindle speed
100~3000rpm.
Three axes adopt dovetail guide rail, with adjustable
taper insert, wear resistance, heavy duty
Surface contact, good rigidity.
CE standard power off cover, open the cover
automatically power off, safe and reliable.

可加工钛、不锈钢、45号钢、铁、铝、铜等各类有色金属和木材、尼龙等各类软材料。

Can process titanium, stainless steel, 45# steel, iron, aluminum, copper and other non-ferrous metals and wood, nylon and other soft materials.

型号	Model	CTGS20
最大钻孔直径	Drilling Capacity (Iron)	20mm
最大面铣能力	Face Milling Capacity	52mm
最大立铣能力	End Milling Capacity	16mm
工作台尺寸	Table size	400x120mm
T型槽尺寸	T-slots size	10mm
工作台行程 (X,Y行程)	Table travel (X-, Y-Axis)	230, 145mm
主轴箱头行程	Head travel (Z-Axis)	200mm
主轴锥度	Spindle taper	MT2/M10
主轴行程	Spindle stroke	50mm
主轴箱左右倾斜	Head tilt	±45°
主轴转速(无级变速)	Stepless speeds (Variable)	100~3000rpm
电机功率	Motor Power	600W
净重	N.W.	60KG
外形尺寸	Overall dimensions	480x440x840mm

产品外形尺寸为手工测量, 存在较小误差, 为正常情况, 具体以实物为准。

The dimensions of the product are measured manually, and there is a small error, which is normal, and the actual product shall prevail.
